

SCREEN MOCK-UPS • ACCOMPANIES THE PRD

Exchange Member Onboarding Portal

Seven key screens across the four personas, sharing a single design system.

Screens 1–3 follow one member (Meridian Trading) through time — filling on day 1, tracking status on day 6 — while the internal screens show the same moment from inside the exchange, with every sample application's status consistent across views.

Interaction rule carried through every screen: the KYC vendor talks only to Operations, and Compliance reaches the member only through Operations. Vendor and Compliance queries land in the Ops queue as route-onward items, so the member always hears a single voice — with every hop timestamped for the time-to-onboard metric.

All directors and key management with nationality and NRIC/passport numbers. **PDF or XLSX**

⬆ Upload

○

Authorised Signatory List

Persons authorised to sign and liaise with the exchange, with specimen signatures. **PDF or XLSX**

⬆ Upload

Before you submit

Common reasons documents get returned — a 30-second check now saves a round-trip later:

- Financial statements must be **signed** audited versions
- Structure chart shows **percentages at every level**
- Licence copy is **current**, not the application letter

Nothing sent yet

Uploads stay in your draft until you submit at step 3. You can replace or remove any file until then.

Decision

Recorded with your name and timestamp; approval automatically opens the Technology provisioning task.

- ☒ Approve membership

☐ Reject with documented reason

RATIONALE (REQUIRED)

KYC cleared with beneficial ownership verified. Financials meet the base capital requirement for securities trading membership. No open queries.

Record decision

Need more from the member?

Compliance does not contact the member directly. Your request goes to the Operations queue, and Ops routes it onward — the answer comes back to this page.
