

PROTOTYPE WALKTHROUGH · PRINT VERSION

# Exchange Member Onboarding Portal

Eleven screens covering the full flow, in walkthrough order: the member journey from invitation to submission (1–5), then the same applications seen from inside the exchange — Operations, Compliance, Technology and Service Management (6–11). Each page reproduces the prototype view, with the navigation pane showing where you are. The interactive version is clickable; this document is its print rendering.

### Before you submit

Common reasons documents get returned — a 30-second check now saves a round-trip later:

- Financial statements must be **signed** audited versions
- Structure chart shows **percentages at every level**
- Licence copy is **current**, not the application letter

### Nothing sent yet

Uploads stay in your draft until you submit at step 3. You can replace or remove any file until then.
